NURSERY STOCK DEFINITION

Nursery stock means botanically classified hardy perennial or biennial trees, shrubs, vines and plants, fruit pits, and other plant parts capable of propagation. The term does not include corms, tubers, field vegetables or flower seeds (IC14-8-2-184).

GENERAL SHIPPING REQUIREMENTS

A copy of the certificate must be attached to each package of nursery stock before shipment of the stock by a nurseryman. [IC14-24-5-4] (No language regarding reciprocity is currently in statute or rule)

Every package of nursery stock shipped into Indiana from another state must be labelled on the outside with the name of the consignor, the name of the consignee, and a certificate from the other state showing that the contents have been examined and found free from pests and pathogens.

NOXIOUS WEEDS

Sorghum bicolor Shattercane
Cirsium arvense Canada thistle
Sorghum aluumum (*Sorghum halepense*) Johnsongrass
Sicyos angulatus Burcucumber
Rosa multiflora Multiflora rose
Lythrum (all species, varieties, and cultivars) Purple loosestrife

QUARANTINES OR ADDITIONAL REQUIREMENTS

VIRUSES OF ROSE QUARANTINE

PESTS: Includes apple mosaic virus and *Prunus* ringspot virus.

STATES REGULATED: All

MATERIALS REGULATED: Rose plants with roots to be sold as outplants.

RESTRICTIONS: Plants must be inspected during the season in which symptoms are expressed and certified as free from any sign of viral infection.

BLACK VINE WEEVIL QUARANTINE

PEST: Black Vine Weevil, *Otiorhynchus sulcatus*

STATES REGULATED: All

MATERIALS REGULATED: All nursery stock

RESTRICTIONS: Stock must be free from black vine weevil.

CROWN GALL QUARANTINE

PEST: Crown Gall, caused by *Agrobacterium tumefaciens*

STATES REGULATED: All

MATERIALS REGULATED: All perennial hosts of *Agrobacterium tumefaciens*

RESTRICTIONS: Material shipped into Indiana must be free from crown gall.

GYPSY MOTH QUARANTINE

PEST: Gypsy moth, *Lymantria dispar* L.

STATES REGULATED: All currently under federal regulation for this pest.

MATERIALS REGULATED: All regulated items listed under the federal quarantine.

RESTRICTIONS: Regulated items must be in compliance with federal quarantine. (Indiana currently has 5 northern counties under a parallel federal-state internal quarantine.)

LARGER PINE SHOOT BEETLE QUARANTINE

PEST: Larger Pine Shoot Beetle, *Tomicus piniperda*

STATES REGULATED: All currently under federal regulation for this pest.

MATERIALS REGULATED: Pinus species as regulated in the federal quarantine.

RESTRICTIONS: Stock must be in compliance with federal quarantine. (Indiana has essentially the northern half of the state currently under a parallel federal-state internal quarantine.)
